Mr. Wade,

You may not be aware we have a new District Attorney in Lauderdale County. We have taken new information to her and requested she allow the DNA to be sent to an outside lab. She has indicated she cannot release the DNA or reopen the case due to the case being an "AG case". I would like to request that you speak to Stanley Alexander about releasing the case to the DA office in Lauderdale County due to the fact that Bilbo Mitchell is no longer the DA there. The conflict of interest was Bilbo's connection to our son and his son's connection to the case. It would be easier for us to communicate and interact with the local law enforcement versus attempting communication with the AG office.

I would appreciate you forwarding these requests to Stanley Alexander and informing us of his decisions.

Thank you

Rae Andreacchio
